Samyak Jain

AI & ML Developer | Full-Stack Builder

Kota, Rajasthan, India · samyak86jain@gmail.com · LinkedIn · github.com/samyak00187

SUMMARY

B.Tech student in Artificial Intelligence and Computer Science who builds full-stack applications and AI tools end to end. Shipped an e-commerce platform with an admin dashboard (Next.js, React, TypeScript), a phased desktop AI command center and a 3D photo gallery. Completed 2026 trainings in generative AI, AI agents, data science and machine learning. Looking for internship, full-time or freelance roles in AI/ML and full-stack development.

EDUCATION

B.Tech, Artificial Intelligence & Computer Science 2024 – 2028
Teerthanker Mahaveer University, Kota, Rajasthan CGPA 7.5

TRAINING

LinuxWorld Informatics Pvt. Ltd., Jaipur · May – June 2026

- Mastering GenAI: Prompt Engineering to AI Agents (45-day summer internship program).
- Research-based Summer Industrial Internship Training in Data Science, Machine Learning & AI (15 May – 30 June 2026), certificate no. LWIPL-2026-1263.

PROJECTS

Jain Electronics Web App | Next.js 16, React 19, TypeScript, Tailwind CSS, Shadcn/UI Live · GitHub

- Built a full e-commerce platform: 100+ products in 4 categories, search and filters, cart, multi-step checkout and order tracking.
- Built an admin dashboard for product, order and inquiry management with sales analytics.

JARVIS | Vite, React, TypeScript, Vitest GitHub

- Designed a modular, desktop-first personal AI command center, built in verified phases with strict type checking, linting and automated tests.
- Added agent orchestration so multi-step requests can be handled by multiple agents; secrets are kept in environment variables.

Samyak Gallery | Electron, 3D web Live · GitHub

- Built a 3D scroll photo gallery that ships as a Windows portable app and as a web version auto-deployed with GitHub Actions.

Smart Blood Report Analyzer | Web app Live

- AI-powered blood test analysis: upload a PDF or image report, get flagged abnormal values and trend tracking (informational only).

MYRAA – Personal AI Assistant | FastAPI, Redis, Qdrant

- Self-hosted assistant with persistent memory and semantic search, packaged as a Windows installer (v1.0.0).

Also built: AI Resume Analyzer (Streamlit, scikit-learn) and 3D Movie Recommender (FastAPI, scikit-learn, React, Three.js).

SKILLS

Languages	Python, TypeScript, JavaScript, C / C++, HTML / CSS
Frameworks	Next.js, React, Vite, FastAPI, Streamlit, Tailwind CSS, Electron, Three.js
AI / ML	scikit-learn, OpenCV, generative AI, prompt engineering, AI agents
Data & tools	PostgreSQL, Redis, Qdrant, Git, GitHub Actions, Vercel, Netlify, Jupyter, VS Code, Vitest
